

Owner: BC Ministry of Transportation and Infrastructure
Location: John Hindle Drive Crossing of Highway 97. Kelowna, British Columbia
Coordinates: 49°56'10"N, 119°23'27"W
Market: Bridge Structures
Start / Completion Dates: May 2007 – October 2007
Contract Value: CDN \$2,100,000

**Project Description:**

The UBCO Flyover was constructed to provide northbound Hwy 97 traffic safer and more convenient access to the UBC Okanagan campus.

The flyover was the key component of a major road and intersection upgrade.

Corporate Role:

Coquitlam Ridge Constructors provided subcontractor services for the construction of a single-span twin-steel-box-beam flyover structure.

Curving structural geometry required careful attention to detailing, fabrication, and erection staging.

Completion of the structure required careful accommodation of traffic traveling below.

Project Reference: Mr. Ton DeGroot, BC MoTI, Kamloops Tel. 250.828.4220
